

Softball Manitoba has restructured their divisions to create a stronger performance pathway which will give more athletes the opportunity to play at a high level.

A - Club level, formerly B

AA - New to introduce High Performance

AAA - High Performance, formerly A

What does this mean for your daughter?

A - If she wants to play for her local team and have fun with friends, nothing will change. Our local communities will be hosting teams as they have in the past.

AA ** NEW THIS YEAR !!!! If she wants more competition, the "AA" level is for those girls who are interested in growing their abilities and skills to be more competitive and want to play a longer season. Players who want to play for an "AA" team are required to register in their own associations and play with their community ball. The AA program will have additional practices and exhibition games, they will play until the middle of August.

AAA - If she wants to play the highest level in the province, AAA tryouts take place in September with teams forming shortly after and practicing year-round. Our regional club is called the Eastman Wildcats and they will be working in our communities to give our kids the best opportunity for success.
